United Healthcare Prior Authorization Clinical Criteria for Continuous Glucose Monitoring System

Parameter	Policy Specification
Payer Name	United Healthcare Gold Plus
CPT Code	95251
Procedure Name	Continuous Glucose Monitoring System
Plan Type	Commercial PPO
Department	Prior Authorization Clinical Review
Status	Active

POLICY PURPOSE STATEMENT

This policy establishes the prior authorization clinical criteria for Continuous Glucose Monitoring System (CPT 95251) under United Healthcare Gold Plus plans. All requests must meet the criteria outlined in this document prior to service delivery.

CLINICAL INDICATIONS FOR APPROVAL

Approval for Continuous Glucose Monitoring System (CPT 95251) is subject to clinical necessity review. The following criteria MUST ALL be met for approval:

Criterion 1 — Diagnosis Requirement:

Patient must have a confirmed diagnosis of one of the following conditions:

- Type 2 Diabetes Mellitus with Hyperglycemia (ICD-10: E11.65)
- Type 1 Diabetes Mellitus (ICD-10: E10.65)
- Secondary Diabetes Mellitus (ICD-10: E13)

Criterion 2 — Laboratory Evidence Requirement:

The following lab values must be documented:

- HbA1c level of 7.0 percent or above tested within last 90 days
- Fasting Glucose level of 130 mg/dL or above tested within last 30 days
- Results must be from a certified laboratory

Criterion 3 — Symptom and Treatment Requirement:

Patient must have documented evidence of:

- Inadequate glucose control on current therapy
- Hypoglycemic episodes or glucose variability
- Active treatment with insulin or oral agents for minimum 3 months
- Difficulty achieving glycemic targets

Criterion 4 — Physician Requirement:

Request must be ordered by a board-certified Endocrinologist or Internal Medicine physician specializing in diabetes management.

REQUIRED DOCUMENTS FOR PRIOR AUTHORIZATION SUBMISSION

Submission of the following documentation is mandatory. Incomplete files will result in a delay in processing or a technical denial.

No.	Document Name	Description	Format Accepted
1	HbA1c Lab Results	Most recent HbA1c test result documenting value of 7.0 percent or above. Must be from certified laboratory within last 90 days. Must include collection date and laboratory reference ranges.	PDF or Image
2	Fasting Glucose Lab Results	Recent fasting glucose measurement documenting value above 130 mg/dL. Must include collection date within last 30 days and laboratory letterhead.	PDF or Image
3	Clinical Justification Note	Detailed note from treating Endocrinologist explaining medical necessity for CGM. Must include current treatment plan, glucose instability history, why standard monitoring is insufficient. Must be signed and dated on official letterhead.	PDF or DOCX
4	Physician Order Letter	Official order on Endocrinologist letterhead. Must include: procedure requested CPT 95251, ICD-10 diagnosis code E11.65, clinical indication, physician NPI number 9876543210, and signature.	PDF or DOCX

United Healthcare Confidential and Proprietary Policy Number: UHC-CCP-2026-95251 Effective: January 1 2026 Page 3 of 5

COVERAGE CRITERIA AND EXCLUSIONS

Coverage Includes:

- CGM for patients with confirmed diabetes diagnosis and documented poor glycemic control
- Real-time continuous monitoring for insulin dependent patients
- CGM when HbA1c above 7.0 percent despite current treatment
- Patients experiencing frequent hypoglycemia
- Patients with hypoglycemia unawareness

Not Covered Under This Policy:

- CGM without confirmed diabetes diagnosis
- HbA1c below 7.0 percent without additional clinical justification
- Monitoring not ordered by Endocrinologist or Internal Medicine specialist
- Requests without documented failed standard glucose monitoring attempts

AUTHORIZATION VALIDITY

The following administrative rules apply:

- Approved authorization valid for 90 calendar days from date of issuance
- Limited to one device per approval period
- Reauthorization required for continued use
- Authorization does not guarantee payment
